

## Corporate Accounts

SleepImage Corporate Accounts are designed for Clinics, Corporations and Researchers. The Accounts are based on having one administrative person (Admin) responsible for managing the Account. Two membership types are offered for the Corporate Account; both include unlimited number of Clinicians and unlimited number of Patients who belong to the practice.

### Device-Based Membership

Device-Based Membership is based on annual commitment for each Sleep Data Recorder paid in monthly installments tied to each serialized active device. Each membership includes one Sleep Data Recorder, unlimited uploads of studies and unlimited reports. This membership type is suitable for organizations with a high volume of patients undergoing sleep disorder screening.

### Patient-Based Membership

Patient-Based Membership is based on limited time-based terms for each Patient, available for 30, 60, 90 or 180 days, paid upfront for each Patient for the term selected. Membership includes unlimited uploads of studies and unlimited reports during the term. Sleep Data Recorders are purchased separately. This membership type is suitable for organizations that do multiple sleep tests per patient as part of therapy management.

**Corporate Accounts feature two account roles: Admin and Clinician.**

#### Admin Role

An Admin role is designed for a Practice Manager or Head Administrator in an organization. This role can perform all functions, such as adding Clinicians or Patients and uploading sleep studies.

#### Clinician Role

A Clinician role is designed for Clinicians to review, interpret and document their patients' sleep studies. They can also add Patients and share sleep studies with other Clinicians in their practice.

### Pricing

Device-Based Membership:	\$180/month **
Patient-Based Membership:	\$24.99/30 days, \$29.99/60 days, \$39.99/90 days, or \$79.99/180 days
Electrodes	\$29.85/30 tests
Sleep Data Recorder Kit:	\$249

Sleep Data Recorders use two CR2016 coin cell batteries (two are included in each Kit) that should be replaced per approximately every six studies. These batteries are easily sourced locally at pharmacies and retail stores, or through online retailers.

*\*\*Recorders are included in the Device-Based Membership insofar as the membership remains active for a minimum of one year. Early cancellation of Device Membership is subject to a payment of \$249 per Recorder.*
