

The SleepImage System

SleepImage is an FDA-cleared, low cost, medically-actionable system that identifies sleep dysfunction and measures sleep quality. SleepImage has easy-to-understand biometrics with automated analysis so the clinician can review and analyze uploaded ECG data to assist Clinicians in screening for Sleep Disorders on a secure HIPAA compliant website

Patient-Based Membership

Patient-Based Membership accounts are intended for short-term screening of individual Patients.

Memberships are available in 7, 30, 60, 90 and 180 day increments, paid upfront for each Patient for the term selected. Membership includes unlimited uploads of studies and unlimited reports during the term. Sleep Data Recorders are purchased separately. Patient-Based Membership is ideal for organizations performing selective screening of their patient populations and/or multiple sleep tests per patient as part of therapy management.

Two Account Roles

Admin Role

The Admin role is designed for a Practice Manager or Head Administrator in an organization. Admins perform most operational functions, such as managing Clinician access, adding Patients and uploading sleep studies. The Admin purchases supplies and memberships for the account.

Clinician Role

A Clinician role is designed for Clinicians to review, monitor and analyze their Patients' uploaded sleep studies. Clinicians can add Patients , upload sleep studies and also have the ability to add detailed observations to each sleep study.

Pricing

Patient-Based Membership:	\$15.99	7 day Membership
	\$24.99	30 day Membership
	\$29.99	60 day Membership
	\$39.99	90 day Membership
	\$79.99	180 day Membership
Electrodes	\$29.85	30 Tests <also available in larger quantities>
Sleep Data Recorder Kit:	\$249.00	Per Kit

Sleep Data Recorders use two CR2016 coin cell batteries (two are included in each Kit) that should be replaced per approximately every six studies. These batteries are easily sourced locally at pharmacies and retail stores, or through online retailers.
